

# What Kind of World Do You Want to Leave Behind?

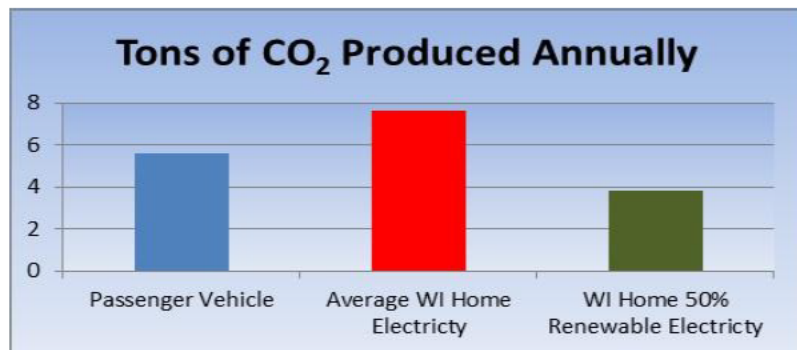

Renewable energy used to be an expensive choice. Now for as little as an extra \$1.70 a month you can power part of your home with clean green renewable energy! Sign up for the WWLC Green Energy Program and create a legacy that will last.

Through Wisconsin Rapids Water Works & Lighting Commission you can purchase renewable energy for as little as an extra \$1.70 per month.

The more renewable energy you purchase the more you ensure your electricity is coming from clean green sources like wind and hydro rather than fossil fuels like coal and natural gas.

The Green Energy Program sells electricity in blocks. Each block is equivalent to 100 kilowatt hours (kWh). An average Wisconsin home uses about 800 kWh's per month. Purchasing...

- ⇒ 1 block a month for a year is equivalent to saving 92 gallons of gasoline\*
- ⇒ 3 blocks a month for a year is equivalent to not driving your car for six months\*
- ⇒ 8 blocks a month for a year is equivalent to the carbon sequestered annually by 1.4 acres of forest\*

*\*Source epa.gov, equivalencies in CO<sub>2</sub> sequestered or not produced*

## YES, I'D LIKE TO

PURCHASE RENEWABLE ENERGY AND CREATE A LEGACY OF SUSTAINABILITY FOR FUTURE GENERATIONS. PLEASE SIGN ME UP AT THE MONTHLY LEVEL MARKED. I UNDERSTAND THAT AN ADDITIONAL CHARGE WILL APPEAR ON MY MONTHLY BILL AND THAT I CAN CHANGE OR CANCEL MY PARTICIPATION LEVEL AT ANY TIME.
